Thanksgiving Dance.

Local dancers have two pleasing events awaiting them which they may take advantage of—the first of these being the Thanksgiving Hop in Kelly's Hall tomorrow night, October 25. Music will be provided by Edmonton's Harmony Kings, who have played several times for dances in Stony Plain. Popular prices prevail for the admissions, and there should be a goodly crowd present, to dance to the music of the City's favorite musicians.

The second dance event that is billed for Halloween, October 31, at the same place, this one being billed as a masquerade dance. This Halloween dance is sponsored by the S. P. Junior Hockey Club members, and the dance is featuring that well known musical organization, Barch's orchestra; and handsome prizes will be awarded those wearing the best costumes; and also there will be prizes for other classes of costumes. Lunch will be served.

The dance given Friday night by Holborn Busy Bees was a very successful affair. The fore part of the evening was devoted to pictures put on by the Telfordville Picture Co. At the conclusion of these showings the floor was cleared and dancing began.

Opening Postponed.

Owing to circumstances over which he had no control, Prop. Hil. Larson regrettably announces the postponement of the opening of his new snack shop and cabaret. The postponement is due to several causes, one of which is the difficulty which is being experienced in installing the new heating plant for the Home of the Hamburger; another is the non-arrival of the imported electrical automatic oven, from which good results are expected in the cooking line. The contractor is making good progress in the alterations to the interior; as also are the imported tilers who are laying the imported mosaic floor tiles.

Suggestions have been made to the head chef that the program of eats be extended to include the schwartenmucken and lutefisk; while an elderly patron with a large wheelbase asks that the tops of the stools be widened a few inches.

Beware the Gypper!

Local farmers who ship turkeys etc. to British Columbia are advised by the Vancouver chief of police to deal only with firms they know to be reliable. New firms arise and others have a change of name for the Christmas season trade, exceptional prices and other inducements are offered, but in many instances the farmer receives practically nothing in return.

To be sure of fair dealing, try your home town merchant first.

Thanksgiving Day.

Today, Thursday, October 24th, is Thanksgiving Day, and a public holiday. All places of business in Stony Plain will be closed.

The Stony Plain Postoffice will be closed, with the exception of the hour between 3 and 4 p.m.

No issue will be made of the Edmonton daily papers.

Recreation A Vital Necessity

Ever since some authority discovered and told the world that every man should have a hobby, the dictum has been reiterated at intervals by later authorities with varying degrees of emphasis and sometimes by those who are interested in promoting some form of amusement or recreation.

Whether uttered, however, with or without an ulterior motive the assertion is one which has a sound foundation in psychology and human experience. It is first cousin and as well founded as that more popularly known saying: "All work and no play makes Jack a dull boy."

While a hobby or recreation is a valuable adjunct to work for man at all periods of his march from the cradle to the grave, in at least two stages of his progress, in youth and in old age, it is an absolute essential if he is to achieve the goal of life—happiness.

The word recreation itself gives a clue to the reason. Re-creation, the making over again of the individual as he seeks relaxation from the "trivial round and commonness" means what it indicates.

Unless a man is content to be a dull clod, he must refresh and re-create himself by seeking relaxation in some pursuit which, for the time, will lift him above the cares and worries incident to earning his daily bread and providing for the needs of those dependent upon him. He needs some outlet, which will infuse rest into aching limbs or brush away the cobwebs from the brain.

In youth this diverse interest may take the form of athletics, mechanical activity and with a minority, some more sedentary type of relaxation, but no matter what form it may take, it is essential to the development of a sound, robust citizenship, that youth should be allowed time for recreation.

The lad or young man without a hobby is apt to become morbid and unhealthy introspective. Youth is normally a period of superabundant energy and this overflowing vivacity should be allowed to express itself in forms of healthy recreation, and if it can be used as a step ladder to a life vocation, it is that much more to the good.

Many a youth has "found" himself in the pursuit of a hobby. History is full of stories of boys and young men who have made good in later life because they have been allowed to follow their bent and of many more who have done so despite overwhelming obstacles and discouragements. By all means encourage the young man to take up some interest, apart from his daily work and chores.

And if a hobby is essential to youth it is vital to old age. There is no more pitiful sight than the old man whose physical powers have waned and who has no interest in life or in living. Such a man is a burden to himself and an incubus to his associates. He is misery personified and makes miserable those with whom he comes in daily contact.

But the old man who has built up an interest secondary to the life work which he pursued in his prime is spared these pains and penalties of advancing years. As he becomes physically enfeebled he is able to turn his hand and his mind to a pursuit which daily grows in fascination, because it can be taken for granted, that the hobby which he has developed is something which he likes and in which, therefore, he can excel. Such a pursuit will go far towards prolonging life itself and will certainly give zest to the declining years. Gloom will give way to sunshine and contentment will displace moroseness.

But it is too late for the aged to develop a hobby after they have reached the sere and yellow. The old adage, "You can't teach an old dog new tricks" is applicable to humanity. There may be exceptions but that is the rule. That is one of the reasons why, even during the crowded years of prime and middle life, a recreation is not only advisable but essential. It is an insurance policy for a contented and interesting old age.

Moreover the man who diversifies his interests beyond his life's vocation, even during the period when life is at the full, is more likely to have an old age in which to further develop his hobby. It need not necessarily be something apart from his daily work. It may well be something related to it, in which event its pursuit will yield additional interest and perhaps more tangible dividends in the task of making a living.

Building Up Air Force

Chinese Dancers Are Willing To Help Aviation League

Dancers are to do their bit in helping China get together a strong air force. This is a result of a request

by the China Aviation League to the proprietors of Chinese dance halls in Shanghai for a charge of five cents on every dollar earned in their establishments to go towards a fund for the purchase of airplanes. The dance hall owners will pass the five cents charge on to their customers. The proposal has been accepted by 20 dance halls and others are expected to notify the Aviation League of the compliance before many dance-nights have passed.

Compiling Jewish Dictionary

Will Be First One Ever Prepared For Publication

Declared to be the first dictionary of the Jewish language ever compiled, a work is being prepared for publication by the Institute of Jewish Proletarian Culture of the White Russian Academy of Sciences, according to a report from Moscow. It will be issued in three volumes. The White Russian State Publishing House is also preparing to publish Jewish translations of the world's literary classics. Among the first to appear will be Shakespeare's "Othello" and "Romeo and Juliet" and Schiller's "William Tell."

Heading the best sellers among Braille books published by the National Institute for the Blind in Great Britain are the Bible and an Edgar Wallace novel. 2121

Assistance Will Be Given

Alberta Government To Help Exhibitors At Winter Fairs

Alberta Government will once again assist seed grain exhibitors at the Toronto Royal Fair and Chicago International this fall. For the Royal Fair, entry fee and shipping costs to Toronto will be paid on boys' and girls' club exhibits. Return shipping costs will not be paid.

At Chicago International Hay and Grain Show, where Alberta has made such an outstanding record in seed grain for the past 15 years, the government will pay shipping costs on approved exhibits. Prize money in the regular grain sections at Chicago won by Alberta exhibitors will be duplicated by the provincial government. In the case of one or more first prizes or championships being taken, a special bonus of \$50 will be granted, which will be increased to \$100 in the case of championships in wheat, oats or barley. The provincial seedstock branch will as far as possible supervise the arrangements for the exhibits.

Still In The Lead

No Book So Widely Read As The Bible

The Bible of the present generation is the outcome of centuries of research and patient effort. It contains 66 books in one, covering history, psalms, prophecy, romance, law, liturgy, biography, and letters delivered as correspondence. Men like King George read a part of it every day for guidance and encouragement in their tasks; Sun Yat Sen, Chinese follower of Confucius, Mahatma Gandhi the Hindu, and Kawaga of Japan, poured over it and were moved to their destinies by its teaching. It is read in palaces and in mud huts. Each year the Bible societies of the world send out 25,000,000 copies in hundreds of languages. In spite of supposed religious indifference it is the most read book in the world.—St. Thomas Times-Journal.

Receive Cordial Welcome

Employees On Beesborough Estate

The Earl and Countess of Beesborough and their family received a cordial welcome from employees of their estate when they returned to their home, Stansted Park, Hampshire, England.

The earl has just completed his term as governor-general of Canada. Flaga waved as the Beesboroughs' car passed beneath an archway of foliage bearing the words "welcome." An address of welcome was presented.

Parents and children from the estate were entertained at tea and a bonfire concluded the celebrations.

Brings Back Heavy Mail

M. M. MacLean, of the Post Office Department at Ottawa, is home from the Arctic with a mailbag almost as big as Santa Claus'. Mr. MacLean went north with the Government's annual Arctic expedition to inspect far northern post offices. He brought back 15,000 letters sent north by Philatelists to be stamped by Royal Canadian Mounted Police officers at post offices on the roof of the world.

Crop Worth Half Million

Growers estimate the 1935 crop of hops in the Fraser Valley at 1,700,000 pounds with a value of half a million dollars. This represents an increase of 300,000 pounds over 1934. Some 2,000 pickers were employed in harvesting the crop.

Might Spoil Their Appearance

Army Troopers Prefer Jail To Having Hair Cut

Troopers of the Czechoslovakian army went on strike recently to escape the great peril of having their hair cut. About 40 of the men stationed at Olomouc flatly refused to obey their commanding officer when he ordered them to report to the barbers for a trimming. They clung to their determination not to have their hair cut and were sent to cells. Their reason, they said, was that they were about to be discharged from the army and would have to look for work. Everyone knows that a smart appearance counts for a lot in getting a job, they pleaded, but who can look really smart with one's hair cut like a convict's?

First Bicycle In Bavaria

Built In 1864 It Is Made Entirely Of Wood

Bavaria's first bicycle, built by the famous German sports instructor, Johann Friederich Trefz, has been acquired by the Deutsches Museum at Munich. The bicycle is made entirely of wood, and was designed and built by Trefz in 1864. Pesants, when they first saw him pedalling the wooden machine along the road around Munich, shouted "witch-doctor" and often threw stones and crossed themselves. Trefz only managed to overcome Bavarian prejudice after he had built an indoor bicycling hall in Stuttgart to "introduce Germans to the bicycle."

Must Have Good Method

Tokio Claims To Know Number Of Flies Swatted

In Tokio they have a way of counting the flies they swat. You have the word of Norimi Iguchi, health prevention chief, that exactly 106,124,516 flies were swatted in Tokio in two days. He does not say who counts them or how, but he explains that the slain flies were packed in 175 large sacks. The champion fly-killer was a fish merchant, who felled 93,000 with deadly accuracy.

Fear Shortage Of Ships

For Viny Pilgrimage

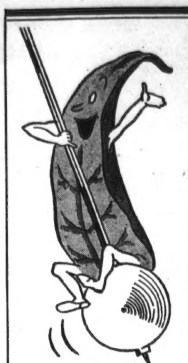

Railways Grant One Cent Per Mile Rate On Applications Pouring In At Rate Of One Hundred Per Week

Canadian Great War Veterans and their next-of-kin are taking no chances on being left behind when the special Pilgrimage Liners leave Montreal on their Canadian voyage in July next. Mr. Earl Allen, Dominion organizer for the Viny and Battledores Pilgrimage, who has just returned from England, France and Belgium, announced that reservations to date number 2,000 and expresses fear that thousands of Canadian war veterans and their next-of-kin may be disappointed in failure to obtain passages unless applications are filed immediately.

"We have just returned from meeting the steamship people," stated Mr. Allen, "and they have warned us that boats may not be available unless reservations are in early. It will be too late if a last few months rush develops. Unless we can definitely state within the next few months what the number will be, there will be many returned men disappointed. Applications are coming in now at the rate of over one hundred per week but we need authorization given us by the Canadian National Railways and the Canadian Pacific Railways Companies to announce a flat rate of one-cent-per-mile to and from Montreal for every pilgrim from his or her home address, we will be swamped with reservations that may fill up our ships."

Employers everywhere are extending the greatest co-operation to their returned men and women employees. Canadian Liner Materials Limited, Scarborough Junction, Toronto, have arranged for all of their ex-service employees to deposit with the company the amount of the employees' credit on regular pay cheques—and the company guarantees to double the amount to the employees' credit on April first of next year. "The plan has gone over big," states W. Atkinson, Assistant plant superintendent.

Interest in the Viny Pilgrimage is being shown at every gathering of returned men. With the usual Battalion Re-unions Dinners commencing in October—the great Memorial Day parades in November, and Christmas activities, it is anticipated that Canada's Peace Army will be a significant warning to Europe of the sentiments in the Dominion against participation in future wars.

Swing Back to Ogden's

Thousands of other "roll-your-owners" are swinging back to Ogden's Fine Cut simply because only Ogden's gives them the satisfying cigarettes they want. With better times, you too, can afford the little that Ogden's Fine Cut costs, and it means everything in smoking enjoyment. Ogden's rolls best with "Chanticleer" or "Vogue" papers.

52 Poker Hands, any number, now accepted as a complete set.

OGDEN'S FINE CUT

Your Pipe Knows Ogden's Cut Plug

In Fernambuco, piano movers carry the instruments on their heads. Six men carry the load, and the seventh goes ahead to clear traffic.

If wood is completely submerged in water and kept so at all times, it will not decay.

NOW TAKE HEALTH from LITTLE MANITOU SPA

FAMOUS MINERAL SALTS BROUGHT TO YOU

Carlsbad, Vichy and other resorts in Europe are famous for their mineral springs. Canada, too, has its Carlsbad, for Little Manitou Lake in Saskatchewan is an amazing lake—a lake of wondrous virtues—yielding medicinal salts of potent curative properties.

These powerful health-giving salts are extracted from the waters of the lake, isolated and prepared, with the addition of iodine, by expert chemists. They are then available to you as "Saskasal"—a very fitting name for these medicinal Spa Salts of Saskatchewan. Saskasal is a non-effervescent salt highly recommended in all ailments arising from acidity of the blood.

If you suffer from Rheumatism, Neuritis, Mild Stomach Disorders, Kidney and Liver troubles, Impure Blood, Skin Eruptions and Constipation, a short course of Saskasal will soon put you in the glorious singing line of health. If you are drifting along in indifferent health, one bottle of Saskasal will give you a new experience of what it feels like to be in real good health. If you think you already enjoy good health, take a sample of Saskasal and then judge if your stomach, kidneys and bowels need the flushing Saskasal gave them.

On sale at your druggists—enough for 10 weeks' treatment—50¢ a bottle.

Many Changes Brought About In Canada Through Motor Car Development

Canada's highways and motor cars present a striking illustration of changes brought about by progress and invention.

In the early days of settlement, roads were auxiliary to water routes as avenues of transportation. They were used during the summer season when portages were necessary to avoid obstacles to river and lake travel, and during the winters when ice prevented navigation. The growth of population and the demand for means of communication between settlement points soon made necessary the introduction of overland routes, and road construction in Canada got under way in the pioneer stages of the development of the country. Exclusive of the streets in cities, towns and incorporated villages, the total mileage of surface roads in Canada at the end of 1934 was 93,642, over half of which was in Ontario. The mileage of unimproved and improved earth roads was 315,627 miles, making a total of 409,269 miles of rural roads in Canada.

The automobile has played a most important part in Canada's road history, especially during the last twenty years in which the motor car has come to rank as a necessity of life to a large proportion of the population. The motor car made its advent in Ontario in 1904, when 535 vehicles were registered, and from that meagre number registrations in the Dominion as a whole grew by leaps and bounds until they reached the peak figure of 1,232,489 in 1930. The next three years showed a slight decline, but in 1934 the automobile again gained ground with registrations totalling 1,129,532 vehicles, a gain of 46,375 over 1933.

Canada has a wealth of highways and motor cars, and the extent to which the Canadian people now enjoy the educational and recreational values of travel reflect the new and higher standards of living which progress and invention have placed practically within reach of all.

May Not Sign Contracts

Kansas Farmers Not Sure Wheat Production Should Be Restricted

Whether new wheat control contracts will be signed by Kansas farmers under the United States Agricultural Adjustment Act apparently rested largely in the hands of the war gods hovering over the old world. The Italo-Ethiopian war and the tense European situation were being watched closely by the farmers.

The fact the United States already is importing Canadian wheat due to reduced domestic supply led to speculation whether the planters of the vast grain belt would consent to follow a new curtailment program. A.A.A. sign-up success would keep fully 600,000 acres in Kansas out of production, an area that normally yield 6,000,000 to 10,000,000 bushels annually.

China Has Ignorance Tax

People Who Cannot Read Or Write Must Pay

An ignorance tax is the latest form of taxation. After April 30, 1936, anyone on the city streets who cannot explain a simple lesson in the standard Chinese primer to any policeman who questions him will have to pay a tax of one copper—the "ignorant people's tax," which is the backbone of the drive against illiteracy. More than half the citizens of Nanking can neither read nor write, and the government has decided something must be done about it.

Seaman Was Appropriate

To avoid confusion when lights failed in the Central Baptist church at Saint John, N.B., during a hymn, Rev. Dr. Bruce P. Knott immediately began his sermon. The subject was the five foolish virgins who neglected to have their lamps filled with oil. The services ended in darkness.

Fireman: "Why were you kissing my girl in a dark alley last night?" Seaman: "Now that she sees her in the daylight, I wonder myself."

The Best Tank Heater

Wood-Burning Fireplace Under Galvanized Iron Tank

After trying many ways of tempering drinking water for cattle and horses, the superintendent of the Beaverlodge Sub-station has decided that, for any situation where the fire hazard does not forbid it, the best system is a wood-burning fireplace under a galvanized-iron tank. The fireplace may be made of cement-concrete walls long enough and wide enough to support the metal tank in which the water is to be warmed. It is convenient to have the fireplace about twenty inches deep and to have a hinged iron door at the south or west end of it, with a four-foot brick chimney at the opposite end. Do not stick a stove-pipe length in this chimney to increase the draft. It will invalidate the fire insurance on any building situated within 60 feet unless the fact is reported to the insurance company and a much higher premium paid. Many companies decline to accept insurance where a metal chimney flue is used. The insurance agent raised no demur when the writer proposed a concrete fireplace with a brick chimney but warned against increasing the height by using a single length of stove pipe.

Flush with the top face of the wall, a few cross bars of iron may be embedded to support the bottom of the tank. It is also well to have a sheet or two of old iron underneath the metal tank to protect its bottom, and especially its seams, from the direct blast of the fire beneath. Draft may be improved and heat economized by banking with earth, except at the fireplace door, and along the side from which the animals are to drink. Some protection may be provided even there.

Old fence posts, old poles or lumber, knotty wood or willow rods grubbed from the breaking make cheap fuel for such a fireplace and usually one or two fires a day will suffice.

Old Test Was Accurate

Grandma Knew How To Tell When Linen Was Linen

Grandma knew! When she wet her index finger, thrust it into a fabric and peered anxiously at the result, she wasn't just being pernickety. She was utilizing what is still—even in this age of complex testing devices—one of the most effective ways for determining whether material is cotton or linen. The finger test is effective, J. A. Nary, chief of the U. S. testing company's laboratory in the merchandise mart at Chicago, explained, because linen absorbs water more rapidly than cotton. Thus when water is placed on a mixture—cotton threads running one way, linen crosswise—it forms a oblong spot instead of the circular one characteristic of pure linen.

In all cotton the spot will be circular, too, but the water will remain on the surface a long time before being absorbed.

United States Butter

Government Official Does Not Expect There Will Be Much Need For Importation

Secretary of Agriculture Wallace predicted there would be little importation of butter by the United States in the next year, says a despatch from Washington. "The speaking on a percentage basis, of course," Wallace said. "You can talk about so many thousands of pounds coming in and make it sound imposing, but as a percentage of the total it won't be important."

The statement was his answer to a press conference inquiry as to whether he believed the proposed tariff on butter, such as had been suggested by a New York group, would be justified.

A movement has been started to introduce Irish stew in Irish Free State hotels.

Geological Survey Work

Large Areas In West Are Found Favorable To Prospecting

Large areas of territory favorable to prospecting have been brought to light as a result of this season's geological survey work which sent 158 parties to the field in 85 projects financed by \$1,000,000 provided under the supplementary public works act.

The surveys found territory suitable to prospecting for gold and at least one promising silver area. Those geologists who have already returned from the field are busy preparing their reports which will be made available to prospectors next year.

Surveys in one area of the north-west territories revealed about 2,500 square miles of good prospecting ground for precious metal deposits and one occurrence showing free gold was staked by prospectors in the wake of one of the government parties.

One of the Manitoba projects reported it had mapped 200 square miles of favorable gold prospecting ground. Some prospecting areas were found in Northern Saskatchewan, while a British Columbia party found tests should be made of tertiary gold-bearing gravels overlooked in the early placer mining days when the district yielded rich rewards.

In an area west of Lake Superior copper-bearing mineralization of the Sudbury type was found. Sporadic outcroppings, not yet proved of economic significance, occur over a distance of 14 miles. Three hundred square miles in the same district were found favorable to occurrence of silver.

Could Not Be Done

A man presented two keys tied with string to a clerk at Leeds Post Office in England and asked for them to be forwarded with a telegram which he wished to send. He was surprised when he was told this was impossible. He said he understood money could be forwarded with a telegram.

"That Miss Smith can't tell a thing without exaggerating." "Did you ever ask her age?"

The SNAPSHOT GUILD SHADOW SHOOTING

Experiment a little with shadow effects. You'll enjoy it.

Did you ever snap shadow pictures? If you haven't you have missed a lot of fun and failed to get some grotesque but fascinating pictures to add interest to your snapshot collection.

Shadow pictures are easy to make, too. The main requisite is a good strong sun in the late afternoon or early morning. Late afternoon, perhaps fifteen or twenty minutes before the sun starts gradually to disappear below the horizon, is preferable for your light is usually stronger at this time and casts deeper and sharper shadows.

The two pictures above are only a couple of examples of the many unusual pictures to be taken with the aid of a strong sun. The picture to the right was the result of a sharp shadow of a man for pictures. As he started down the steps of the elevated train platform—with his camera ready camera—says he, "Here is a picture, so hurriedly set the flash and the shutter speed at 1/250 of a second and snap—he had a fine shadow picture. As the man at the bottom of the

Experts Of League Give Advice On How To Cure Crisis In World Trade

Rusted Wheat

Grain Board's Report Shows 17 Per Cent Graded As Rusted

Some indication of the damage caused by rust to western wheat is given in the report of the statistics branch of the board of grain commissioners on the movement of western Canadian grain for September. Approximately 17 per cent is graded as "rusted." Improvement in exports of wheat is foreshadowed. The report follows:

The export movement of Canadian grain to overseas destinations has been slow indeed during the first two months of the crop year. There are, however, abundant indications of a substantial improvement developing.

Now that the movement from country points is in full swing, a better idea of the effect upon this year's crop of rust and unfavorable climatic conditions is obtainable. Using the inspection returns for the first nine days of October as a basis of calculation, 17 per cent of cars of bread wheats graded into the "special" (rusted) wheat grades and feed, 14 per cent graded number 5 and 6 and 48 per cent, 3 northern and better. The heavy increase in the proportion of light-weight grain is reflected in the lower average weight per carload unloaded at the terminals, 1,474 bushels in September as compared with 1,518 bushels a year ago.

Not Caused By 'Quakes'

Although ancient Rome had numerous earthquakes, there were never any of outstanding destruction. Some historians contend that many of the Roman palaces and temples said to have been destroyed by barbarians between the fifth and ninth centuries were really shaken down by quakes.

Ethiopia is exporting more coffee, hides and goatskins than at this time last year.

"Physician, heal thyself!" Well might that mocking cry epitomize the advice of economic experts of the league on how to cure the crisis in world trade, says a report from Geneva.

Everywhere doctors—individuals and governments—are at work. They are employing purely national remedies for the disease. "The doctors have not yet been able to agree," a report of the league's economic committee comments in tone of disappointed reproach, "and it has so far been impossible to attack the disease the proper way—i.e., internationally."

"Accordingly, the malady from which the world is now suffering is no longer entirely the crisis but rather the inability of the countries to co-ordinate their several efforts to emerge from the crisis. This inability to emerge from the crisis is a result of the paralysis of the international circulation, the regular operation of which is indispensable to the welfare of the civilized nations."

The sixteenth assembly of the league, representing 54 nations, gave its blessing to free international trade. The secretary of state for the United States sent a telegram of approval. Recovery of trade, the assembly resolution held, would be assisted by the conclusion by as many countries as possible, of bilateral agreements having for their object the application of a more liberal economic policy. The resolution held further that the beneficial effects would be more widespread when based on the principle of the most-favored-nation clause. "Agricultural experts are, in addition, to be consulted with a view to finding a world solution for agricultural depression."

And documents submitted present a revealing picture of a world where doctors went wrong. Two facts emerge. The first is the steady and very substantial recovery in raw material production and industrial activity. The second is the almost complete stagnation of international trade.

Canada To Gulf Shelter Belt

125 Miles Of Planting Finished In Six States

A start has been made on the great Canada-to-Gulf shelter belt about which so much was said and written a year ago, according to an announcement in the Forestry News Digest published by the American Tree Association, Washington, D.C.

Paul H. Roberts, acting director at Lincoln, Neb., says in the Digest that 125 miles of shelterbelt plantings have been completed in the six states traversed by the zone. An additional 5,117 acres of special tree plantings on 1,926 farms have been completed. This later planting was made in co-operation with farmers.

On the 649 acres of land now under lease for nursery purposes, seedling is being rapidly completed, and a number of the species are up. Barring extreme weather conditions or unforeseen insect infestations, it is expected about 75,000,000 seedlings will be produced.

North Dakota, with 36 miles of strip plantings has the largest mileage. South Dakota, with 28, and Kansas with 24, are close contenders. The mileage planned this year was very largely restricted by the amount of suitable nursery stock available, both as to age and variety of trees. The wide climatic conditions encountered throughout the shelter belt zone, make it necessary to grow a variety of trees to meet this range of conditions. Each state must plant to meet its own particular needs.

Plan Has Proved Success

That the experiment of the Canadian railways in the introduction of their pick-up and delivery freight services has proved to be an unqualified success, this year's summer months demonstrate. Since introducing such services last year, the Canadian National Railway has received an average of 10 per cent more business than in the same period of last year, was stated at the annual meeting of Canadian National Railway Agents Association.

JOHN VAN GUILDER

Now Science Explains Why So Many People Past 40

Feel That They're Slipping
Feeling Their "Grip" on Things

Many people "round 40 think they're 'growing old.' They feel tired a lot... 'weak.' Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply an acid condition of the stomach. Nothing more.

All you have to do is to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all!

Try this. Soon you'll feel like another person—like either the familiar liquid "PHILLIPS" or the convenient new Phillips' Milk of Magnesia Tablets.

PHILLIPS' Milk of Magnesia

WORLD HAPPENINGS BRIEFLY TOLD

Robert W. Babson, statistician and economist, predicts the United States will be out of the depression in six months and headed for prosperity.

Winnipeg's death rate has been cut almost in half in the past 25 years, health department figures show. In 1910, the rate was 13.6 per thousand population. Last year it was 7.6.

At two mass meetings in Kingston, Jamaica, "congratulations" were extended to Great Britain for her stand against Italy before the League of Nations.

Sixteen persons were killed in Moscow when an eight-storey building collapsed during construction. The number of injured was not immediately known. A building on the same site collapsed in 1913.

Jackie Cooper of Jasper Park, Alta., riding "Stamp" to victory, captured first prize in the cowboy's saddle bronk riding contest at the 10th annual world's championship rodeo at Madison Square Garden, New York.

A finding that the Mexican government "is seeking the abolition of religion" is contained in a report of a deputation sent to that country last summer by the American committee on religious rights and minorities.

A deed of gift disclosed that former U.S. Secretary of the Treasury Andrew W. Mellon has given more than \$10,000,000 to be used for a building and site for a national art gallery in Washington.

J. Grove Smith, Dominion fire commissioner, told a service club fire deputation in various Canadian cities needed \$15,000,000 worth of new equipment to fill replacements and increases postponed during the depression.

Kind acts, like boomerangs, come home to roost.

Using Different Principle

Energy Of Sea Will Propel New German Liner

Resembling a ferocious monster of the deep, an ocean liner is being designed in Germany to make use of the sea's unlimited energy as a propelling medium.

The ship will have an opening in its bow that will give it the appearance of a giant whale swimming over the water with its jaws ready to devour anything in its path. This opening will gather up the ocean waves and pass them through the ship. The water will be ejected by means of spouts along the sides of the liner. The water, forced out under pressure, is expected to drive the ship forward at great speed. As a result the expense of operating a liner is expected to be reduced, says "Modern Mechanic."

Within the mouth of the ship will be an observation platform and a row of windows, through which passengers may watch the waves surging into the hold. The unusual liner will be streamlined to increase its speed.

R. J. May, an engineer of Pirna, Germany, conceived the idea for the novel ship. He plans to install a large suction pump at the rear of the liner's mouth. This will draw up the water and force it under great pressure through pipes to the spouts along the sides. The electric motor driving the fan will be powered by a diesel engine.

May plans to build a model which will be tested on the Elbe river near Dresden, capital of Saxony. If tests prove successful, the engineer will seek to interest steamship companies in his project.

Unlike the ordinary liner which has propellers at the stern only, May's ship will have nine points of propulsion. These are the nine spouts located at the sides and stern.

Latest In Motorships

Luxurious Rooms For Passengers On Denmark's New Freighter

The motorship Canada, newest and finest ship of the Danish East Asiatic Line's fleet, arrived recently on her maiden voyage from Europe to Port of Vancouver.

Captain C. Knudsen, well-known in the port, formerly master of the company's Amerika, commands the new Canada.

Canada showed the port of the latest in modern ship architecture, with refinements that have been inspired by travel competition.

She is an up-to-the-minute freighter, with refrigerator space, in addition to regular cargo space, for 75,000 boxes of fresh fruits.

But it is her luxurious passenger accommodation for 55 passengers which will attract the attention of landladies. Beauty and convenience are allies aboard Canada.

Appointments include a large dining room, which seats all passengers, luxurious social rooms which include a smoking saloon, ladies lounge, dance foyer, cocktail bar, children's dining room, and a built-in swimming pool—the first on any ship plying between the Pacific coast and Europe direct.

In the smoking saloon are paintings by Riberhold of Denmark's most-famed scenic attractions. In the dining room is a painting of Fredensborg Castle by Axel Johansen.

Rooms on the new ship are air-conditioned, all are outside and equipped with standard beds. Seventeen of the 25 double staterooms have private baths. There are five single rooms.

Organist Wins Prize

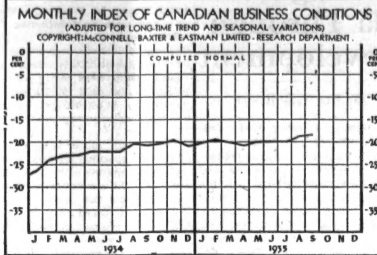

Wins Competition Sponsored By I.O.B.E. Of Winnipeg

Walter MacNutt, A.T.C.M. organist and choir director of Trinity Anglican church, Barrie, Ont., received word he had been awarded first prize of \$50 in a nation-wide competition sponsored by the Associated Organists, I.O.B.E., of Winnipeg, for the best musical composition submitted by Canadian composers.

Mr. MacNutt named his composition "Take Me To A Green Isle."

Mrs. Lillian J. Edward, Winnipeg, chairman of the musical committee of the chapter, informed Mr. MacNutt the song would be used in fall concert work in Winnipeg. 2121

CANADIAN BUSINESS CONDITIONS

A further fractional advance has been recorded by the McConnell, Baxter & Eastman monthly index of Canadian business conditions. The preliminary composite figure for the month of September was 81.3 per cent. of normal, compared with 81.2 per cent. (revised) for the month previous and 79.7 per cent. of normal in September, 1934.

Gains were recorded by three of the four component factors. Car-

Loadings of revenue freight	76.9	76.8	76.5
Construction contract awards	64.2	64.1	63.2
Bank deposits	90.5	90.7	84.9
Electric power production	100.9	100.5	87.9
Combined weighted index	81.3	81.2	79.7

Has Highest Death Rate

The highest death rate in the word according to statistics just published came from Skopje, a town in Southern Yugoslavia. Twenty-four out of every 1,000 inhabitants die each year—twice the average rate for the rest of Europe. Lack of hygienic treatment for babies and a widespread tubercular infection of cows are stated to be the causes.

Tax Men Fuzzled

County and city authorities of Vancouver, Washington, face a perplexing situation in the case of Earl Mangle Smith's home, which rests half in the city and half in the county. He eats his breakfast in the city and reads the morning paper in the county. How much to charge Smith in taxes by both officials is their problem.

Household Arts

Gloves

PATTERN 5280

Crochet your gloves and you will be not only comfortable and warm but also right in style whether it's sports or dressy clothes you favor. This pair made in a soft wool will add an attractive note to your costume. The gauntlet glove with its lacy inset gives it a swaggar look. The wrist-strap adds to the trim appearance. And if you drive, they are just the thing for, though moulding beautifully to the hand, they give the ample freedom necessary in handling a car.

In pattern 5280 you will find complete instructions for making the gloves shown in a small, medium and large size (all given in the one pattern), an illustration of it and of the stitches needed; material requirements. To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

SUNDAY SCHOOL LESSON

OCTOBER 27

BELSHAZZAR'S FEAST

Golden text: Wine is a mocker, strong drink a brawler: And whosoever erreth thereby is not wise. Proverbs 20:1.
Lesson: Daniel 5:1-31.
Devotional reading: Psalm 1.

Explanations And Comments
The Fate of Nebuchadnezzar, verses 17-21. Belshazzar the king had promised Daniel a purple robe, a chain of gold, and the position of third ruler in the kingdom, if he would interpret the handwriting that appeared on the wall. "Let thy gifts be to thyself, and give thy rewards to another," returned Daniel, and then assured the king that he would interpret the writing. But first he reminded Belshazzar of Nebuchadnezzar's fate.

Nebuchadnezzar became like the beasts and dwelt among them: he ate grass like oxen, and lived out under the open sky; this was his life until he recognized the supreme sovereignty of the Most High God. "His illness is well known to science as that form of hypochondriasis (madness) in which a man takes himself for a wolf, or a dog, or some other animal. Probably the fifth century monks, who were ignorant of the Book of Daniel, took him for a madman, have been, in many cases, half-maniacs who in time took themselves for coxswains." (F. W. Farrar).

Belshazzar's Warning, verses 22-24. "Though thou knewest how great Nebuchadnezzar was humbled, thou hast not humbled thy heart," Daniel then solemnly said.

Daniel charged the king with having drunk wine, he and his court, out of the sacred vessels purloined from the temple of Jerusalem. And he charged him also with having praised senseless images called gods, and having neglected the true God who holds in his own power their breath of life and all their destiny. Moffatt's translation. "Then," Daniel concluded, "the part of the hand was sent before"—the fingers of a man's hand, verse 5—and this writing was inscribed.

The Writing and Its Interpretation, verses 25-28. And this is the writing that was inscribed: Mens, mene, tekel, upharin, that is, Numbered, numbered, weighed and divisions, as the words are translated literally in the margin of the Bible. The words are Aramaic, and in the Hebrew Bible the whole story is told in Aramaic, not Hebrew. "The feast clearly took place in the palace; and it is evident that when the king saw the vision he was under the influence of wine."

The interpretation follows in Daniel's words, verses 28-29. That night Belshazzar was slain, and Darius the Mede received the kingdom.

PULL HERE

CONFERENCE IN NOVEMBER IS CALLED BY KING

Ottawa.—It was learned here that Rt. Hon. Mackenzie King, in acknowledging congratulations received from Liberal provincial premiers, had expressed the hope they would seek to arrange their engagements as to make possible their presence at a Dominion-provincial conference in Ottawa on a date to be arranged in November.

He also sent a telegram to Premier Aberhart of Alberta advising him of the communication he had sent to the other premiers and asking if Mr. Aberhart also could arrange his engagements as to enable him to be present at the conference. (All the other provinces have Liberal premiers).

As soon as the new Liberal government assumed office, Mr. King said, it was his intention to discuss immediately with his colleagues the holding of a Dominion-provincial conference. The premiers would be advised of the decision.

Although Mr. King gave no indication as to the subjects proposed to be discussed by the conference, the impression here is that legislative enactments of last session will be studied in relation to their constitutional validity. Suggestions to amend the British North America Act may also be under review.

Canadian Legion Anniversary

Celebration In November By Branches Throughout Dominion

Ottawa.—Arrangements are well advanced among branches throughout Canada for the celebration next month of the decennial anniversary of the founding of the Canadian Legion, J. R. Bowler, general secretary, announced.

In connection with the birthday celebrations General Alex Ross, Dominion president of the legion, will undertake a tour of the country. He will be present at the Alberta provincial convention at Medicine Hat this month and will be in Winnipeg for the Armistice Day ceremonies, Nov. 11. Following that the general will tour Ontario, winding up in Ottawa on Nov. 25, when a public function celebrating the anniversary will be held.

Legion officials are hopeful the governor-general, designate, Lord Tweedsmuir, may be able to attend.

Enforcement Of Act Delayed

Premier Aberhart Gives Out Statement Regarding Health Insurance

Edmonton.—State health insurance will not be brought into effect for some time, it was announced by Premier Aberhart. The act, passed at the last session of the legislature, will stand over until payments of basic dividends begin.

"One reason for not taking action now is that Social Credit means health benefits for the people," the premier said.

One objection was that under state health insurance there would be direct levies on people living in a unit organized under the plan.

As a result it is felt, he said, that the matter should stand over until Social Credit is brought into operation, when there would be automatic health benefits for the people.

Threat Of Typhoid

Fever Epidemic May Cause Shift Of Italian Troops

Harar.—Italy has been forced by the threat of a typhoid fever epidemic to shift 10,000 of its troops from Italian Somaliland to Eritrea, it was reported here.

Ethiopian strategists are counting on the disease as one of their most valuable allies in their plans for defence of the Addis Ababa-Djibouti railway from an Italian offensive originating in the southeast.

Typhoid sweeps through Ogaden province each November, and the swampy lowlands west of the Webbe Shihel river become dangerous even for natives, who are partly immune to the germ.

Explore Polar Sea

Wilkins And Ellsworth Expedition Leave For Antarctic

Montevideo, Uruguay.—The Norwegian whaling ship Wyatt Earp, armed with activity as Lincoln Ellsworth and Sir Robert Wilkins completed preparations to sail at once for their Antarctic expedition.

Accompanied by two Canadian aviators—Herbert Hollicke-Kenyon, of Winnipeg, and J. H. Lymburner, of Montreal—Ellsworth hopes to span Antarctica by air before Jan. 1 in the low-winged monoplane "Polar Star" which has undergone intensive tests here. It will be Ellsworth's third attempt to conquer the icy continent by air.

The objective of the flight across 2,800 miles of ice-bound mountain crags and snowy wastes will be to determine if possible whether Antarctica is one immense continent or two, divided by a channel from the Weddell sea to the Ross sea.

May Try State Medicine

Envisaged For Manitoba By Minister Of Health

Winnipeg.—State medicine throughout Manitoba, if an experiment about to be made in a small area proves successful, was envisaged here by Hon. I. B. Griffiths, provincial minister of health and public welfare.

Preparations now were being made by the government to establish a unit area in which a form of state medicine will be tried out, he said. The ultimate scheme would involve free medical, hospital and drug service to individuals, the cost to be borne "probably by provincial and municipal governments out of taxes."

In the unit area contemplated, said Mr. Griffiths, there would be no change in the present system except that doctors, druggists and hospitals would not send bills to patients. Payment would be taken care of from a common fund provided by the municipal and provincial governments.

Weather Held Up Ballot Box

Voters In Northern Mining Camp Deprived Of Poll

Ottawa.—Elections at the mining camp of Chibougamau in the new constituency of Chapeau, Que., deprived of a poll on election day because unfavorable weather prevented the ballot box from being flown in, will not be afforded an opportunity of exercising their franchise later, the chief electoral officer stated here.

Similar situations have arisen in previous elections when unforeseen difficulties prevented a ballot box reaching a poll in an isolated district, and the principle was followed that ballots could not be cast after election day. A total of 120 voters are located at the northern mining camp.

VISITS CANADA

Lord Rothermere, British newspaper magnate, who has arrived in Canada to spend a short vacation. He will spend the majority of his visit in Toronto.

Plan Welcome For Lord Tweedsmuir

Official Ceremony At Quebec On November 2

Ottawa.—The official ceremony of welcome to Canada will be extended to Lord Tweedsmuir at Quebec on Nov. 2 on his arrival on the Duchess of Richmond, it was announced. The ceremony at the ancient capital will include the swearing in of the new governor-general.

Suggestion was made the new Liberal cabinet of Rt. Hon. W. L. Mackenzie King, victorious at the polls, may be sworn in here by the administrator, Sir Lyman P. Duff, in the interim. While no official intimation was available, this was thought as a likelihood.

The usual course will be followed with the prime minister of the day with his ministers journeying to Quebec to welcome the new incumbent of Rideau Hall. Mr. King, with his colleagues, welcomed Lord Willingdon when he arrived at Quebec in 1926. Mr. Bennett and his ministers went to Halifax to greet Lord Bessborough on his arrival in 1931.

Series Of Earthquakes

Starts New River Running Near Afghanistan Border

Moscow.—A new series of earthquake shocks in the district of Tadzhikistan, near the Afghanistan border, destroyed several villages and started a new river running from the mountains, said dispatches.

In all, there have been three series of quakes in the region, beginning October 5. The total dead was placed at 107 after the first two series and apparently the death toll was not great in the third disaster.

Study Air Currents

Balloons Sail Into Stratosphere To Collect Valuable Information

Calgary.—Every night at 8 during last week a balloon was released at Calgary airport to sail into the stratosphere and collect valuable information concerning air currents and temperature.

The experiment, carried out by C. H. Bromley of the Calgary meteorological bureau, are in conjunction with Dominion-wide work under the supervision of John Patterson, chief of the Dominion meteorological bureau at Toronto.

Three balloons were released in Calgary last March when the experiments began and another trio were sent out on fact-finding missions in June. Four were found, one going as far east as the Alberta-Saskatchewan boundary.

When the balloon bursts in the stratosphere, the double kite carries the instruments safely to the ground. The aluminum case is fixed between the kites and never touches the ground. Directions are attached to the kites asking that they be forwarded to the meteorological office at Toronto where a reward will be paid for their return.

Powerful Radio Stations

U.S. Talk Of Installing Super-Powered Stations Near Border

Washington.—A study aimed at re-aligning the United States radio system to provide from 20 to 40 super-powered stations and probably 150 new low-powered ones has been undertaken by engineers of the federal communications commission.

Plans under consideration are said to call for the establishment of high-powered stations on the Canadian and Mexican borders. These stations, however, would operate with directional antennae, throwing most of their power inland and away from the border stations of Canada and Mexico.

Ottawa.—Before any general plan was considered finally by the United States which would involve the setting up in that country of super-powered radio stations, each of 500,000 watts power, Canada and Mexico would be invited to confer with Washington on the proposal as it would involve probable interferences with broadcasting operations here and in Mexico. No invitation to such a conference has been received here.

Big U.S. Deficit

Washington.—Uncle Sam dipped his pen in red ink, and reported his deficit had passed the billion-dollar mark for the present fiscal year. The United States treasury in a statement put the deficit at \$1,007,457,156 through Oct. 14. This compared with a deficit of \$687,211,671 on the comparable date of last year.

GENEVA PUTS MORE WEIGHT BEHIND LEAGUE

Geneva.—Geneva has put more weight behind the League of Nations sanctions against Italy. Its "general staff" of 52 nations adopted a resolution urging member states quickly to fulfill their "duty to take the necessary steps to enable them to carry out" their sanctions obligations.

Earlier, the heavier artillery for economic sanctions—a "buy nothing from Italy" plan—was moved into committee discussion by Anthony Eden, British minister for league affairs. Eden observed with satisfaction that no open opposition was expressed to his proposal to prohibit importation of "all goods manufactured in Italy," although the economic sanctions committee has not as yet definitely adopted it.

Once economic sanctions—a key product embargo and the "buy nothing from Italy" boycott—have been finally approved, the first phase of the league's sanctions drive will be ended.

From then on League of Nations sanctions actions likely will be confined to watching over the enforcement of measures adopted.

Paris.—After the League of Nations has acted upon Great Britain's proposal that a "buy nothing from Italy" campaign be adopted as a sanction, France and Britain, officials disclosed, plan to ask the United States whether it would support a world-wide embargo against Italian exports if the league should adopt such a sanction.

The two powers will seek to learn if the United States would restrict its Italian imports to aid the league.

Attitudes of other non-league member powers, including Germany, Japan and Brazil, will be sought likewise, it was understood.

Canada Stands Committed

Ready To Carry Out Sanctions Imposed By League

Toronto.—Hon. Newton Rowell, Canada's delegate to the first assembly of the League of Nations, told the Canadian Club here, Canada stands committed to carry out all sanctions which the league might impose against Italy under articles of the league covenant. Canada must sever all commercial and financial relations with Italy should economic sanctions be imposed on that country.

Great Britain hesitated, Mr. Rowell said, when Ethiopia's application for membership in the league was raised, and it was "only because of the advocacy of France and Italy" that Ethiopia was admitted to the league. There were no less than five treaties or agreements binding them to settle any disagreement by peaceful means.

Brazil Reduces Army

Finance Commission Anxious To Save On 1936 Budget

Rio De Janeiro.—Although virtually every important world power is increasing its armaments, the finance commission on the chamber of deputies approved a slash in Brazil's standing army. The proposal would remove 3,000 men from the army, leaving it at 698,162, in an effort to save about \$300,000 in the 1936 budget.

Uniform Text Books

Winnipeg.—Possibility of a joint education board being set up for the prairie provinces, with the objective of having uniform text books in the west, will be explored by the Manitoba department of education. Departments of education in the other provinces will be asked for their views.

Man Is Modified

Toronto.—Horse testing between 11 p.m. and 7 a.m. must cease in Toronto "except when required to do so by law," it has been ruled by city council. The clause making exception for law enforcement was inserted in an amendment before the bill was passed by the civic legislature.

"The Prize Is So Great."

Forecasting important measures to relieve the debt load of farmers and hardships in Alberta, pleading for sympathy and co-operation, warning that no one need think all he had to do was sit back and wait for basic dividends to come and promising that not a single step would be taken by the Government without the best expert advice, Premier Aberhart addressed 200 citizens in the Macdonald hotel Tuesday at a luncheon tendered by the city to the new Government.

"Alberta is in the eyes of the world. If we fail, you will bear the brunt as well as we will. If we win, there is no reason why you should not share in the reward . . . the prize is so great that I have no hesitation in standing before you and pleading for your co-operation. Shall we link hands in a great co-operative movement to live and let live, or shall we sit on the sidelines and criticize and, when we fail, all go down together? The Premier asked.

Among the 200 present were Lieut. Gov. Walsh, cabinet ministers, members of the city council, members of the Provincial Legislature, former mayor and representatives of service clubs.

The Noted Annexer.

A missionary in India was having an earnest talk with a Hindu whom he hoped to convert to Christianity.

"Come now," said the missionary, "wouldn't you like to go to Heaven?"

The Hindu shook his head in polite regret. "I do not think that Heaven would be very good," he replied, "or the British would have grabbed it long ago."

WHO OWNS THE BANKS?

Excerpts from a speech made by Mr. J. Muir, general inspector of the Royal Bank of Canada, before the Advertising Club of Montreal, on October 16:

"Clients of Canadian banks have learned that they can discuss with their bankers; with the greatest freedom, the most intimate details of their affairs, without the slightest fear of anything being disclosed. This feature alone shows that a very deep bond of confidence exists between the Canadian people and the chartered banks.

"At this stage it might be well to clear up once and for all who really own THE BANKS. Some people would have you believe that they are the instruments of a privileged few, whereas the truth of the matter is that the 1,445,000 shares of the banks are owned by nearly fifty thousand different parties. The average holding of each is less than 30 shares, and a large proportion of the owners are women and es-

CHAPTER XXI.

The days that followed etched new lines in Columbine Nelson's face, for only a few hours after her second telegram to Massachusetts Jack took an unexpected turn for the worse.

"Shall I send for his people?" she questioned, when after a time that seemed endless a grave-eyed doctor emerged from the boy's room.

"I should wait," he answered. "If Jack were my own son, Miss Nelson, and I so far away, I should say the same. You see, if the end comes, it will be soon; and since his parents could not reach here in time to see him, isn't it kinder, and wiser too, not to harrow them with the knowledge of how dark the prospects look just now? If he lives through the night the boy will probably recover. He's putting up a magnificent fight, and every nurse and doctor in the place is fighting with him—in spirit, anyway. I don't say that his condition isn't desperate; but somehow I've the conviction that he'll make the grade."

Miss Columbine did not leave the hospital that night; nor did she close her eyes till early morning when a nurse appeared to say that Jack seemed to have turned the corner and his physician felt the worst was over. Not until then did the old lady cry a little, and the doctor ordered a powder that brought sleep. It was almost noon when she heard a rap upon her door, and Matthew Adam entered the room.

"Did I wake you, Miss Columbine?"

The Man Who Knows

Whether the Remedy
You are taking for
Headaches, Neuralgia
or Rheumatism Pains
is SAFE is Your Doctor.
Ask Him

Don't Entrust Your
Own or Your Family's
Well-Being to Unknown
Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism; or the neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effects, have proved that the medical findings about its safety were correct.

Remember that "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains—and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

Demand and Get

"ASPIRIN"

"No; I was only snoozing. How's everything now, Matt?"

The young man sat down on the bed and grinned at her.

"Jack's sleeping—naturally. Nancy isn't suffering this morning; and it looks as if the kids were coming through without a single amputation. That Osgood boy's been telling me what happened. I tell you, Miss Columbine, I take off my hat to Jack and Nancy—and to some of those brave youngsters too."

"I guess the papers didn't exaggerate this time," she observed.

"You're right. But just the same, I miss my guess if it's not some shock to those young relatives of ours when they read the story! How do you suppose it feels, Miss Columbine, to have the country regard you as heroic?"

"Well, it won't hurt either of 'em," responded the old lady. "They've got the Nelson common sense. It's I who's likely to be puffed up, Matthew. Think of the courage it must have taken a boy to start out in the teeth of such a storm, especially when the driver had disappeared. And Nancy! A girl brought up as she's been—everything soft and easy so far—to do what she did—Well, all I can say is that my pioneer mother would have been proud of her!"

Matt noted with pleasure that Miss Columbine spoke with her accustomed briskness.

"You must go home to-day, Matthew," she said later. "It's been a comfort knowing you were here; but your father needs you, and I'll not be babied any longer."

The young man smiled.

"I've had orders per telephone, to stay on duty a day longer. Mark's on his way in from Prairie Ranch right now. Mother's coming down in the truck to take him home and, incidentally, pick out a new car! That's a good thing came out of this blizzard, Miss Columbine, we're practically forced to buy a decent automobile. The old one's done for; and even Dad can't rake up an excuse to put us off. The Adam clan is thrilled at the prospect. We're to have a family reunion at the Ford agency this afternoon."

Miss Columbine laughed and said: "Your mother deserves a modern car if anybody does. Is Mark all right again?"

"He'd come whether he was or not. They've had to take turns sitting on him to prevent his getting out of bed! All that kept Mark from joining that rescue party, Miss Columbine, was the fact that Aunt Em hid his clothes and locked the closet where Uncle Tom keeps his. I must run now and get a bite before I meet the family."

After this things went more smoothly, and the messages to Edgemore contained only the best of news. Thus there came a day some two weeks later when Nancy found herself in the 'big black walnut bed again, with General Grant looking down disapprovingly, she thought, on her Chinese coat; and Mark Adam looking quite the opposite, as he stood in the doorway.

"Furnishing your fan mail?" he questioned soberly.

Nancy laughed. Her bed was strewn with newspapers and letters, not to mention various telegrams from her admirers. She laid down a cable from Aunt Judy and the Spear twins as she said:

"Come on in and be seated. No, not the bed, Mark! My feet don't seem to belong to me yet, and I've got the feeling that if anybody sits on 'em they'll break off! Where's Matt? I want him to read some of those foolish letters. Can—can you beat that?"

She tossed him a mischievous look, but before Mark had time to look at it, Aurora Tubbs puffed up the stairs.

"What'll you have for dinner, Nancy? There's a steak, and creamed potatoes, and some hot-house tomatoes that come by express this

morning from a sincere admirer in Fort Collins, whoever he is. Would you like apple pie, or a good baked custard? Miss Columbine says to order anything you want. My stars! Your bed's a perfect sight. I hope this praise you're gettin' won't turn your head."

Nancy smiled and replied: "I'll choose the pie, Aurora. And could we open a can of your wonderful strict beef?"

"Sure we could. Why don't you ask right out to stay to dinner, Mark Adam? You might as well as sit there lookin' hungry."

Mark shook his head, endeavoring to appear pained.

"You wrong me, Aurora. I'm headed for Colorado Springs soon as my elder brother arrives from home in the new car. We're to swap vehicles; and I dare say Matt would appreciate that grudging invitation, though if you ask me, he's already enjoyed more than his share of our nation's heroine."

"I think he's gettin' awful sweet on her," observed the woman, so soberly that Nancy suppressed a smile.

"So'm I," said Mark, and grinned at Nancy.

Aurora moved forward, her brow furrowed with worry.

"I hope to goodness it won't make so trouble in the family, Mark Adam."

"Would break your mother's heart if anything was to come between you boys. What are you laughin' about now, Nancy Nelson? It's no laughin' matter for two brothers to get sweet on the same girl."

There was a pause as Elton brooded up to Cripple Creek. They both felt in love with Sarah Peters and—Yes, Miss Columbine's (as a warning sounded from below).

"I know you told me not to talk Nancy to death. I'm comin' now."

"And she leaves us," Mark said tragically as Aurora fled, "in complete ignorance as to the fate of those unfortunate Eltons! I'll look in on Jack this afternoon, Nancy. Want me to take him some of this accumulation?"

"I do if you won't forget to bring them back. I'm saving every one of these absurdities to show my grandchildren. Jack's seen the papers, I suppose."

Mark nodded.

"He says he feels like Lindbergh! The last of those kids goes home to-day, Nancy. It's wonderful how well they all came through."

"Isn't it? I was so awfully afraid for some of them. It makes me shudder just to remember how they suffered. Is that Matt honking so cheerily below the window? Heard me that compact on the bureau, Mark. I expect I look a sight."

The young man threw her a reproachful glance as he obeyed.

"I note the fact that you used no powder or lipstick on my account, Miss Aladdin. Say! Aunt Em sent in a big donation for the library. I left the books with Mary Taylor, but she suggested you might like to look 'em over here."

"I would. I can hardly wait to get back to the library. Juanita says—"

"All ready, feller," called Matthew from below.

2121

Man, they're good!

Christie's Premium Soda Crackers, made crisp and fresh in Western Canada for Western Canadians.

Christie's Biscuits

"There's a Christie Biscuit for every taste"

Mark went to the stairway and looked down.

"Why don't you join us, brother? Nancy's been beautifying herself just for your benefit. She looks like the Queen of Sheba or Greta Garbo, or some one."

Matthew obeyed, saying as he passed on the threshold: "I was only thinking that two callers might upset the invalid. How you feeling, Nancy?"

"Great! And don't call me an invalid. There's nothing the matter except that my feet feel sort of—well, sort of brittle!"

"Mark Adam," called Miss Columbine, "you come right down. You've been there half an hour. It's Matt's turn now."

"Coming," called Mark; and then to Nancy: "I'll drop in later and let either, but all is so wisely measured to our strength that the bruised red is never broken. We do not look enough at our trials in this successive and continuous work. Each one is sent to us to teach us something, and altogether they have a lesson which is beyond the power of any to teach alone."

"You appear to be submerged in letters, telegrams and the daily press," he told her, smiling. "How does it make you feel, Nancy?"

Her eyes lighted with something near amusement.

"It may sound ungrateful, but most of this business makes me want to laugh. It's awfully nice for every one to say such things about us; but I know, and you know too, Matt, that anybody else would have done exactly what Jack and I did. It just happened to be us—that's all."

"I'm not so sure," said Matthew gravely. "I—think you're wonderful, Nancy."

(To Be Continued)

All Have Same Idea

Seven Sons In One Family Serve On Police Force

A family of seven sons, and all in the police force, is the record set up by Mr. and Mrs. M. Duncan, of Foulis, Scotland. Duncan senior, also served as a policeman for a number of years, but left the force, and took up farming. After leaving school in turn the seven sons tried to farm. Six of them are at least six and over in height, while the youngest, who is only 18, is five feet 11 inches.

Little Helps For This Week

A bruised reed shall He not break. Isaiah 42:3.

All my life I still have found And I'll forget it never; Every sorrow hath its bound, No cross endures forever. All things else but have their day, God's love only lasts for aye.

We have never had more than we can bear. The present hour we are always able to endure. As our day is so our strength. If the trials of many years were gathered into one they would overwhelm us, therefore in pity for our little strength He sends first one and then another, and then removes both before He lays on a third heavier perhaps than either, but all is so wisely measured to our strength that the bruised red is never broken. We do not look enough at our trials in this successive and continuous work. Each one is sent to us to teach us something, and altogether they have a lesson which is beyond the power of any to teach alone.

Pilgrims Visit Battlefields

A quarter of a million pilgrims visit the Great War battlefields of France every year, and of these six per cent are German, twice as many as British. No fewer than 14,700 Germans visited Verdun alone during 1934.

KIDNEY TROUBLE

will result in headaches, backaches, broken sleep, and a tired, listless feeling during the day. At the first indication of any of these symptoms, take Gin Pills for prompt, safe relief. You'll feel better, look better and sleep sounder.

for a beautiful, energizing breakfast
Bran Muffins, Marmalade, Bacon, Cereal and Coffee
Look for the Quaker Natural Bran display at your grocer's. He sells all the things you need for this delicious breakfast. The recipe for Bran Muffins is in the package.

WHO OWNS THE BANKS ?

Continued from page six.

tates, the beneficiaries of which are children. The shareholders, like those of any other corporation, elect the directors to act on their behalf in matters pertaining to the operation of their particular bank. The directors own personally not more than a fraction of the total shares outstanding, and this will show you how absurd it is that anyone should say the control of the banks is vested in the hands of a few. It is needless of course to add that directors are retained only so long as they enjoy the confidence of the shareholders whom they represent.

"There is no point upon which it has become more fashionable to criticize the banks than upon their alleged unwillingness to make loans. While it is inevitable that bankers, being mere mortals, are subject to error the same as all other humans, it is seldom indeed that a worthy and deserving borrower fails to obtain consideration. Unfortunately sometimes there is a borrower whose ideas as to his merits for a loan differ from the ideas of his banker, but this is not nearly so often as you may be led to imagine. It is not without record too that occasionally a one-time disappointed would-be borrower has later returned to his banker and thanked him for not having made the loan and so saved him from an unfortunate investment or business venture that would have turned out poorly. Not infrequently it happens that the person who most loudly decries the banks for their unwillingness to lend is undeserving in proportion to the volume of his outcry, or, as is so aptly described in the words of the Immortal Bard: "Doth protest too much, methinks!"

"At times we have heard it stoutly proclaimed that the banks have been most restrictive in their loans to the farming community of Canada. Based upon my personal experience, I should be inclined to think that if one were to make a canvass of all farmer-borrowers he might be told by them that, in the main, their complaint is not that they have received too little credit but that in the past the banks have been over-generous in facilitating it."

OCTOBER—

- 24—Thanksgiving Day
- 25—Dance, Kelly's Hall
- Dance at Spruce Grove
- 27—Opening of Lutheran church at Holburn
- 31—Hill's New Snack Shop opens
- 31—Hallowe'en Masquerade dance at Kelly's Hall
- Nov. 30—St. Matthew's Ladies Aid Bazaar

Residents Changing Their Quarters.

The Gannon Family moved last week from the Armbruster bungalow on 2d ave. to the H T Walton plot of land on North Main St. The Jacob Becker family, who have been living in Edmonton the past few years, have moved into the Armbruster bungalow.

By-elections for Ross and Aberhart.

Certified copies of official voting lists for use on Thursday Nov. 14 have been sent to Athabasca and Okotoka-High River in readiness for bye-elections to provide seats in the Legislature for Premier Aberhart and Hon C C Ross. If elections are necessary in either constituency it will mean revision of the voting lists. It is stated that Liberal Leader W R Howson and Conservative Leader D M Duggan have declared they do not favor opposition to the Ministers that the decisions rest with constituency organizations.

Morse for Motor Horns ?

A British motorist, quite unaware of the anti-noise crusade in Canada and the U.S.A., steps forward and advocates a code of signals for horns which would enormously multiply the number of toots. He suggests something like, an alphabet—for instance, 2 long toots and 1 short one might mean: "Look out, cyclist, I am really passing this time"; or 2 shorts and 1 long might mean "I resent your cutting in, old chap." The worst of it is, with a bad memory he might have to pull over to the curb and consult the code book.

Spruce Grove News.

A box social and dance will be held in Spruce Grove high school on Friday, October 25, sponsored by the pupils. A charge of 25c for each person will be made at the door; ladies bringing baskets are admitted free and gents bringing baskets will have the entrance fee deducted from the purchase price of the basket. The proceeds will be used to buy sporting equipment for the club.

Sunday night's snowstorm came a little too soon for some farmers still unthreshed, judging by the streaks which still decorate the stubble fields.

The annual masquerade dance up at Stony on Hallowe'en the 31st, will attract quite a few of the dancers from this district.

The side roads of the district are at present in a very slippery condition.

Bazaar, Sat. Nov. 30.

The Ladies Aid of St. Matthew's Church (Missouri Synod) will hold a Bazaar on Sat. Nov. 30, St. Matthew's School, Stony Plain.

C. N. Train Service.

Trains from the East arrive here on Sunday, Tues., Thurs. at 1:32 p.m.

Trains from the West arrive here on Sunday, Wed. and Friday at 6:23 p.m.

Miller—Goertz.

In Stony Plain, on Sunday, October 20, a marriage was solemnized, when Mrs C Goertz became the bride of Mr Ph. Miller, the officiating clergyman being the Rev E Eberhart.

Weed Out Misfits.

Adam and Eve, happily situated in the Garden of Eden, had an ideal setting for the world's first agricultural co-operative.

But the world's first co-op failed—and for the same reason that others have failed since, according to James Stone, Marcellus, N.Y., farmer.

It came to grief because the members listened to those on the outside.

Speaking before the American Institute of Co-operation at Cornell University, Mr. J. Stone summarized the essentials to co-operative success. A weeding out of misfit members he deemed vitally important.

"People who are successful with livestock believe in the slogan 'Breed, feed and weed.' When we discover misfits, weed 'em out. In this way we may build a live, active, sound co-operative—eliminating the kicker, the growler, the dead-wood."

Inga M. D. Poundkeepers.

All-weather Road to Jasper.

The local motorists will doubt be pleased at the official statement there is now an all-weather highway to Jasper Park. The distance from Stony Plain to Jasper is approximately 218 miles. The news was received Monday from a member of the firm of Fitzgerald and Stanley, who had the contract for graveling the last 46 miles. "The golden spike will be driven at Hinton on Saturday night, Oct. 26," continues the message. Plans are under way for representatives of the A.M.A. in Edmonton to be present at the ceremony. It is expected representatives from Edson also will be present.

Open Seasons for Game.

Deer, moose, Nov. 1 to Dec. 14
Ducks, geese, Sept. 16 to Nov. 14
Elk, Oct. 1—Dec. 14
Grouse, Oct. 1—10

Fox, Nov. 1—Jan. 31
Mink, martin, otter, Nov. 1—March 31

Muskrat, Mar. 1—April 30 South of N. Saskatchewan river, no open season.

Sunday Shooting is prohibited. Licenses may be procured at The Sun office.

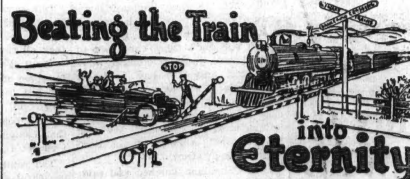

ACREAGE FOR RENT.

20 ACRES, MORE OR LESS, Next Town of Stony Plain.

APPLY

Jas. Malloch,

PHONE 34.

All highway crossings are by law protected by signs, and they are only dangerous when the driver of the automobile makes them so. They are not dangerous if motorists will take a small part of the care they exercise in turning on a city street. It is the motorist's carelessness that makes them dangerous. The train has right of way. Everyone knows what may happen if the plainly seen warnings are disregarded at a point where the motor car can stop while the train cannot.

The surprising part of it also is that safeguards and precautions erected by the railroads are so often entirely ignored. Time after time newspaper reports show that crossing alarm bells, barrier gates and even watchmen waving "stop" signals mean nothing to the man in the

motor car who is determined to beat the train to it.

Coroners' juries are usually more discriminating and put the blame where it belongs, but the general public, seeing the usual newspaper heading, "Train Crashes into Motor Car," starts out with the impression that the train must necessarily be to blame, when, as a matter of fact, a fairer statement of the case would be "Another Auto Gets in Path of Fast Train." Quite as often, too, the heading should read, "Flying Auto Dashes into Moving Train." Frequently the auto strikes the train well behind the engine, a convincing indication that the motorist too frequently treats the railroad crossing with the same casual notice that he gives the intersection of a quiet country road.

THANKSGIVING DANCE,

FRIDAY, OCT. 25. Kelly's Hall.

Music: Edmonton's Harmony Kings.

MASQUERADE DANCE,

THURS. OCT. 31. Kelly's Hall.

Featuring Barth's Orchestra.

Gent 50c. Lady 25c. Lunch Served.
